## Forensic Lab – Budgetary focus

**FLATSCAN DF-80 helps you save time and money with your Radiologic Facilities and Radiology requirement, as shown below:**

### 1 A – Radiologic Facilities

Why an x-ray system?

- Increases lab efficiency
- Adds a potentially new revenue stream
- Offsets the lack of certified forensic pathologists
- Helps your lab meet N.A.M.E. certification requirements

Why have your own system and not outsource your x-ray services?

- Minimizes your overall spending
  - o Manpower
  - o Transportation (trolley, refrigerated truck, etc.)
  - o Cost of x-ray images
- Minimizes potential (in-transit) limbs losses
- Minimizes potential (in-transit / corps) contamination
- Allows flexibility
- Faster turn-around time

Why invest in a new x-ray system?

- User friendly ; Fast ; Safe ; Reliable
- Provides
  - o Superb (digital) image quality, similar to medical diagnostic systems
  - o Advanced features & benefits
- Helps
  - o Ascertain the facts
  - o Document your findings
- **For additional information, please refer to Totalpost Security Systems' document "How FLATSCAN DF-80 can help you achieve N.A.M.E. Inspection and Accreditation Checklist"**
